

Are You Prepared for Storm Surge/Flood Loss?

Flooding is a natural disaster that can affect you no matter where you live. Florida residents, especially those at the coast, are at a higher risk for flooding from storm surge related to tropical storms and hurricanes. Your Citizens policy, just like any other homeowner's insurance policy, does *not* cover storm surge/flood loss. The National Flood Insurance Program (NFIP) offers this coverage, which can be purchased through your insurance agent. If you don't have an agent, contact the NFIP, using the information below, for a referral to an agent who can assist you with flood insurance.
