Risk and Assessment Reductions

Notes:

- Storm Risk is as measured by 1-in-100 year probable maximum loss (PML) plus estimated loss adjustment expenses using the Florida Hurricane Catastrophe Fund (FHCF) account allocation where PLA and CLA are combined. PLA/CLA combined PMLs are added to the Coastal PMLs to be consistent for surplus distribution. In general, the PMLs presented are as projected at the beginning of storm season; with the exception of 2017 which is as of August 31, 2017.
- Surplus and Assessments are as projected at beginning of storm season. Not all PLA/CLA surplus is needed to fund storm risk in 2014. In 2015 - 2020, not all surplus in PLA/CLA and the Coastal Account is needed to fund storm risk. Remaining surplus is available to fund a second event.
- Florida Hurricane Catastrophe Fund (FHCF) is as projected at beginning of storm season; with the exception of 2017 and 2018 which are Citizens' initial data submission to the FHCF.
- Depopulation PMLs are not included in storm risk totals and are presented as year end totals. PMLs from 2011-2014 use a weighted average of 1/3 Standard Sea Surface Temperature (SSST) and 2/3 Warm Sea Surface Temperature (WSST). 2015 - 2019 PMLs reflect only SSST event catalog. 2020 Depopulation PMLs are not yet available for inclusion in this exhibit.

Notes:

- 1) Excludes takeout policies
- 2) In 2006, there were 142,980 policies assumed from the Poe Financial Group included in Citizens' total policy count. As these policies remained on the Poe system at the end of that calendar year, they are not allocated at the account level.

% Difference	(20%)	(20%)	(22%)	(21%)

91% of Citizens' HO-3 policies are charged **LESS** than the average competitor's rate.

Citizens Rates

Prior to 2007, rates were required to be non-competitive with the private market.

Rates for personal and commercial residential policies were frozen by statute from January 1, 2007 through December 31, 2009.

Rates are now required to be actuarially sound, but not to exceed 10% increase annually per policy, excluding the Florida Hurricane Catastrophe Fund Rapid Cash Build-Up Factor.

Citizens Board makes annual recommended rate changes to the Office of Insurance Regulation (OIR) and they establish rates for Citizens.

Citizens is not required to purchase reinsurance at the same level as the private market is required. Citizens provision for reinsurance is much lower than the private market, thus leading to a lower rate need for Citizens. If Citizens needed the same level of reinsurance as a typical private insurer then its Homeowners multiperil and wind-only indication would nearly triple.

Citizens' Premium Drivers for Homeowners and Homeowners Wind-Only

Projected HO3/HW2 Cost Categories for 2021

	<u>Projected Dollar Amount</u>	<u>% of Total</u>
Fund Future Hurricanes	\$208,989,500	31.7%
