

# Know **Where to Go** When **Sheltering** from a **Tornado**

1. Top-floor rooms **DO NOT** protect you.
2. Move to an interior room with no windows.
3. Exterior rooms and rooms with windows **DO NOT** protect you.
4. **NO PLACE OUTSIDE** is safe from a tornado.
5. Move to an interior room on the lowest floor and bring your emergency supply kit.

Stay safe when sheltering:

- Protect your head.
- Monitor alerts on your weather radio.
- Wait for the all clear.
